DETAILED ACTION

Response to Amendment

A further review of this application has produced a not before mentioned rejection of the claims, therefore, the finality of the last action is withdrawn.

Double Patenting

Claims 11-30 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 7-10 of copending Application No. 10/764,174. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims are merely an obvious variation of those presented in the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

Claims 11-30 are allowable over the prior art of record.
